

# Mental Health Services Guide for Professionals Servicing the Murraylands and Mallee Region

This Guide was developed primarily for General Practitioners, visiting medicals specialist and allied health professionals. The purpose was to highlight the wide range of services available to patients and clients who reside in the Murraylands and Mallee of South Australia.

This map has two layers. A Snapshot identifies the name of the service provider, their contact details, core business and some critical information requested by the medical and health professionals. Over the top of the Snapshots is a matrix that breaks the core business down into categories such as child support, disability, financial assistance etc. categories which each agency

The agencies are positioned on the left hand side of the matrix and are hyperlinked to their relevant Snapshot. Hard and electronic copies were made available.
